Obesity Goodbye Center

Our facilities

About us?

Obesity goodbye is a group of specialists in the management of obese patients, our goal is that as a patient you feel part of our family.

That is why we assign a doctor specialized in the care of bariatric patients, so that support you in your process from the first contact to your post-surgical follow-up, which guarantees the greatest possible success.

That makes us different?

Your surgeon and doctors will be very close to you throughout the entire process. Besides this allows us to better follow up in the early stages after your surgery,

Bariatric surgeon with more than 20 years of experience; **Dr. Sergio Verboonen** is a renowned surgeon in Baja California, with a zero rate of complications, great success surgical post, in addition to an impeccable work ethic and a great sense of humanity.

Our patients spend their entire stay in the hospital:

Due to the risks and the discomfort of transferring post-surgical patients, our patients are care and treated in the hospital throughout the process, likewise all our pre-and post-surgical tests and assessments are carried out at the facilities of the hospital, minimizing any risk for the patient and his companions.

Obesity Goodbye Center
